

Homes for Hope

LORALOMA X TUWL

Following the generosity of our partners Dell Loy Hansen and the Wasatch Group, Areté Collective and the Loraloma community at Thomas Ranch will use a portion of our development proceeds to partner with To Ukraine With Love to gift homes in support of their efforts rebuilding the eastern Ukrainian village of Andriivka.

A SENSE OF BELONGING

Not only do we try to return families to their original land, but our modular homes are delivered fully furnished and stocked with all the necessities needed to make each new house feel more like home. Once settled in their new home, the healing journey continues through access to much-needed social services and meal programs spearheaded by Dell Loy Hansen and TUWL.

A CONNECTED COMMUNITY

By partnering with TUWL to rebuild the devastated village of Andriivka, we are able to create a residential community that offers a critical support system and a sense of connectivity to displaced and unhoused families of Ukraine.

A COMMITMENT TO COLLECTIVE GOOD

As placemakers, we are committed to bringing together our depth of community-building experience with our ambition to improve living conditions for people beyond the boundaries of our developments. Working alongside Dell Loy Hansen and his passionate mission to care for people in need, we are able to contribute our development expertise to restore communities and a way of life in Ukraine.

Through the gift of a home, we provide the opportunity for Ukrainian families to return to their land and thrive once again.

By becoming part of the Loraloma community, you are directly contributing to this life-changing effort. Learn more about our mission and how you can continue to help.
